

REINVENTION

A caterpillar is shown on a wooden stick at the top left. Below it, two pupae are attached to the stick. On the right, two butterflies with black and yellow wings are shown, one slightly behind the other, representing the final stage of the process.

re in ven tion

the act of producing something new based on something that already exists

re – again, back; in – in, into, onto; ven – coming; tion – act, process result

linked words – reanimation, rejuvenation, preventable, circumvent, convention
