ACHIEVEMENT & EXCELLENCE

**OFFICIAL SENSITIVE**

7 October 2020

Dear Parent/Guardian

**Year 10 Maths Catch Up Programme**

I am writing to inform you of some details in relation to some support that we have planned specifically for Year 10 students. We are aware that there may be a need to revisit, clarify and consolidate content covered during lockdown. Our priority with catch-up support is initially in Maths. Each week students will be able to access Maths lessons on Teams. The delivery of virtual teaching points and guidance will last approximately half an hour with optional additional tasks linked that students can complete after teacher instruction (thereby providing an opportunity for students to apply their knowledge).

The programme in Maths has been designed to focus on the topics covered during lockdown, with the aim to revisit and consolidate learning.

This provision is available for all students. The overview of topics included in this letter can act as a “menu” for students. They are able to opt in and out of as many of the tutorials as they feel valuable. Even if students have a good grasp of the topics identified, having the opportunity to revisit these areas in a virtual way, may help build confidence, strengthen recall and provide reassurance.

**How to Access**

All virtual lessons will be conducted through Microsoft Teams. **Students can access the Maths lessons in the Team - Year 10 AGR (2020).**

Virtual lessons will be uploaded at the beginning of each week.

**Maths Catch Up Programme:**

Date (Week Beginning)	Topic Area	Ability Band
12/10/20	Plotting straight line graphs	All
19/10/20	Equation of a straight line	All

From the 2 November, a weekly English lessons will run alongside the Maths above Programme. A separate letter will be sent with topic and access details. If there are any questions or concerns about this programme of support, please feel free to contact me.

Yours sincerely
